

Subject: Thank YOU soo so much!!!

Date: Thu, May 17, 2012 1:45 pm

Dear David Jaffin,

We received your donation today! Thank you so much for donating to our program. A new trumpet and saxophones for our kids and the school band program will change the lives of our students. The students were really excited when I told them about your donation, and they couldn't imagine that someone far away would care about them this much. My students really work hard every day, and our band program continues to grow because of amazing donations like yours.

Our students are thrilled to be able to play instruments that looked good and sounded good, and as a result, their confidence increased and their desire to play well increased. This, in turn, inspired the other players to want to achieve more. It was an incredible thing to behold! We will be able to use these horns for our band program for many years to come.

When I told our community and administration about your gift, they were thrilled also. It impressed them that strangers would be willing to make an impact like this on their students. From my perspective, as the teacher who works with and motivates these kids every day, I will never be able to look out at my students play without thinking of how you helped make our school band better. Thank you!

Mr. Hart
